

Craig'slea State High School School Council

Community Feedback

The Craig'slea State High School Council is constituted to improve student learning outcomes by helping to guide the strategic direction of the school.

To carry out this governance role, the Council needs to:

- Be well informed about the school
- Share a vision for the school
- Contribute to the development of the school's strategic initiatives
- Monitor the implementation of school policies and plans
- Provide advice to the principal as a 'critical friend' on strategic matters and
- Help develop community links and partnerships for the school

School councils drive the involvement of the community in setting the school's strategic direction and tone as well as endorsing important decisions about strategic plans and budgets. School councils contribute to the strategic leadership of the school and act as the bridge between the school and its local community including staff, parents, governments, community groups and local business and industry.

The Craig'slea School Council would like to hear from any members of the school community about ways in which the school can improve student outcomes, innovate and further develop the school's strategic direction.

Feedback questions:

1. Is there something we should:
 - a) start doing?
 - b) continue doing?
 - c) stop doing?
2. Is there something you think we do not know?
3. Can you make us aware of new opportunities?

Please email the Craig'slea School Council secretary at schoolcouncil@craig'sleashs.eq.edu.au

Further information about the Craig'slea School Council is available from the school's website.
