From the Principal

School overview

Craigslea is a co-educational school of approximately 1100 students and was established in 1975. While many students travel some distance to seek their secondary education at the school, the majority of students live locally in the suburbs of Chermside, Aspley, McDowall and Stafford Heights. The school's motto is 'Striving for Excellence' and our vision is for all students to become 'Active Citizens in a Global Society'. Our values shape our attitudes and behaviours and are shared by parents, students, teachers and the wider school community. Our values are: Learning; we provide high quality teaching practice to develop in students a personal curiosity for learning and a responsibility to strive to achieve their best in all that they do. Respect; we respect ourselves and treat others within our school, our community and society with respect and dignity. Safety; we all contribute to ensuring a safe, inclusive and disciplined school environment for all members of the school community. Relationships; we recognise the importance of working collaboratively and in partnership with families, community groups and business to provide quality education for students at Craigslea. At Craigslea there is a very clear intent to provide the educational foundation for our students to be confident and active citizens in a global society. Confident and ethical engagement with others and society requires a set of skills including communication and leadership along with dispositions of respect and empathy towards others. As well, the school has a proud tradition of academic excellence, a culture of inclusiveness and high expectations for all students. Craigslea has a dedicated, experienced and knowledgeable teaching staff that is acknowledged as providing the very best academic standards for students, and this is evidenced by the excellent outcomes our students achieve. We build a strong philosophy about learning based the belief that personal curiosity towards learning is at the heart of what it means to be a life-long learner and crosses all pursuits and inquiry. Personalizing each student's learning through understanding and responding to specific needs is at the core of our teachers' work, and central to this is the relationship between student and teacher. Craigslea State High School provides opportunities for all students to achieve a suitable post-school pathway. The full range of academic programs, with highly experienced teachers, provides preparation for all university courses. Vocational training options provide students with a range of qualifications and pathways beyond secondary education. We support students' well-being through an Intervention program and co-curricula programs in the arts, which includes opportunities for community and volunteering which complement and extend classroom learning. This 'beyond the classroom' approach is practiced by all faculty areas through a range of camps and excursions. For example, our Science faculty has a strong focus on field experience at locations such as Lady Elliott Island. The Signature Music program boasts seven ensembles and has strong links with local primary schools. The music program tours either inter-state or internationally on a regular basis. The Craigslea Volleyball Academy (CVA) has attained national recognition and is viewed as one of Australia's premier Volleyball Schools. Volleyball involves students at all levels, junior to senior, who select this activity and have available, should they choose, volleyball curriculum classes. Incorporated with volleyball, our school has introduced and facilitated Beach Volleyball. Craigslea is a member of the Council of International Schools. This means that the school has been evaluated and meets rigorous international benchmark standards across all aspects of the school's operations and is achieving top level performance in provision of a world class education. The school also has an International Student Program which has been a part of the school since 1996. This program sees students enrolled in formal graduate and study abroad programs from many other countries. These students make a significant contribution to Craigslea, and their presence adds a dimension to school life for all students which not possible elsewhere. Internationalism is evident in many areas of the school. Students also have the opportunity to study Japanese and German. These classes are taught by native speakers who are able to give students an authentic cultural experience. Overseas study tours further develop their cultural and language education. The school provides students with opportunities for learning about issues that have local, national and global significance including involvement in 'World Challenge', environmental groups (including Reef Guardianship) , and a proactive student school Social Justice Committee.

Curriculum implementation

The P–12 curriculum, assessment and reporting framework specifies the curriculum, assessment and reporting requirements for all Queensland state schools' principals and staff delivering the curriculum from Prep to Year 12. Further information on school implementation of the framework is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/p-12>.

Extra-curricular activities

Queensland state schools provide a wide range of subjects and extra curricula activities such as sport, art, music and school camps. Further information can be found here <https://www.qld.gov.au/education/schools/information/programs>.

How information and communication technologies are used to assist learning

Information and communication technologies (ICT) are an important part of contemporary schooling. The Australian Curriculum includes ICTs as a general capability across all learning areas, as well as Digital Technologies as a specific learning area. Further information on models used by schools to assist learning is available at <https://education.qld.gov.au/parents-and-carers/school-information/student-ict-device-programs/one-to-one-models>.

Social climate

Overview

Each Queensland state school develops and enacts policies to support an integrated approach to behaviour, learning and teaching.

Our Student Code of Conduct is our school's behaviour policy, with information about school rules, consequences and processes for addressing bullying and the use of technology. A copy of this is available on our school website.

Further information is also available at <https://www.qld.gov.au/education/schools/health>.

Parent and community engagement

Our approach to engaging with parents and the community is aligned to the departments Parent and community engagement framework. The framework helps students, schools, parents and the community to work together to maximise student learning and wellbeing. Research shows parent and community engagement that is effectively focused on student learning can deliver powerful outcomes. Further information is available at <https://education.qld.gov.au/parents-and-carers/community-engagement>

Respectful relationships education programs

Our school has implemented the Respectful relationships education program (RREP) as part of the broad multi-departmental Queensland Government approach to ending domestic and family violence.

The RREP is a Prep to Year 12 prevention program that focuses on influencing behavioural change to build a culture based on equality and respect in our students, staff, parents and wider community, Students are provided opportunities to explore social and emotional learning in self-awareness, self-management, social awareness, relationships, ethics, values, social norms, gender roles, stereotypes, human rights, risk and responsible decision-making. A growing body of evidence shows that social and emotional learning of this nature leads to:

- improved social and emotional skills, self-concept, bonding to school and classroom behaviour
- less disruptive classroom behaviour, aggression, bullying and delinquent acts
- reduced emotional distress such as depression, stress or social withdrawal.

Further information is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/respectful-relationships>

School disciplinary absences

Note:
School disciplinary absences (SDAs) are absences enforced by a school for student conduct that is prejudicial to the good order and management of the school.

Environmental footprint

Reducing this school's environmental footprint

Environmental education has been a feature of Queensland schools for more than 30 years. In many schools it has been creatively and proactively incorporated into the curriculum in each phase of learning, and is also reflected in the school's facilities and in the actions of its principals, teachers and students.

Table 7: Environmental footprint indicators for this school

Utility category	2016–2017	2017–2018	2018–2019
Electricity (kWh)	520,756	496,148	493,550
Water (kL)	5,080	7,822	3,077

Note:
Consumption data is compiled from sources including ERM, Ergon, CS Energy reports and utilities data entered into OneSchool* by schools. The data provides an indication of the consumption trend in each of the utility categories which impact on this school's environmental footprint.

*OneSchool is the department's comprehensive software suite that schools use to run safe, secure, sustainable and consistent reporting and administrative processes.

Qualification of all teachers

The Queensland College of Teachers (QCT) is responsible for ensuring that teaching in Queensland schools is performed by an appropriately qualified person, that has successfully completed either -

- (a) a four-year initial teacher education program including teacher education studies of at least one year (e.g. a Bachelor of Education, or a double Bachelor degree in Science and Teaching) or
- (b) a one-year graduate initial teacher education program following a degree (e.g. a one-year Graduate Diploma of Education (Secondary) after a three-year Bachelor degree) or
- (c) another course of teacher education that the QCT is reasonably satisfied is the equivalent of (a) or (b). These are considered on a case-by-case basis.

Student destinations

The Queensland Department of Education conducts [annual surveys](#) that capture information about the journey of early school leavers and Year 12 leavers from school to further study and employment.

Early school leavers

The destinations of young people who left this school in Year 10, 11 or before completing Year 12 are described below.

Schools work closely with a range of external agencies to support students who left school early.

Our Principal, Deputy Principal, Regional Transitions Officer or Guidance Officer liaises with early school leavers and their parents, providing a service 'beyond the school gate' to assist early leavers make a successful transition to other educational pursuits or employment.

Next Step — Post-school destinations

The results of the 2020 Next Step post-school destinations survey, *Next Step – Post-School Destinations* report (information about students who completed Year 12 in 2019), will be uploaded to this school's website in September 2020.

To maintain privacy and confidentiality of individuals, schools with fewer than five responses will not have a report available.

This school's report will be available at <https://craigsleashs.eq.edu.au>.
